THE FAME JUNKIES, consisting of local legends Scott Murphy, Scott Morse and Tristan Etherington, perform party hits and classic anthems for all ages, ranging from the 50's to today's latest chart-topping hits.

From Mitchell Street to Bathurst Island, from Gove to Alice Springs, these boys have travelled extensively and gained massive local popularity across the Top End with their vast repertoire and a distinguished track record that has influenced and inspired their peers within the local music scene.

Formed in 2012, THE FAME JUNKIES have since made a household name for themselves playing weekly gigs at the Territory's best-known venues, as well as wowing audiences at formal events such as weddings and corporate functions. Their diverse song list and quality production make them a cut above the rest in the NT!

A bit more about the creative minds behind THE FAME JUNKIES from the boys themselves...

### **Scott Murphy**

A professional musician for more than 20 years, Scott had already played in some of Melbourne's best-known cover bands before moving to the Top End. Playing alongside his partner Chrissa in their original band Valanti for 7 years, they took their performances overseas numerous times. When Scott moved up to Darwin in 2011, he made his mark playing with Dr Elephant for 18 months on lead guitarist and backing vocals. These days, plays as both band leader of THE FAME JUNKIES as well as weekly solo acoustic shows around town.

### **Tristan Etherington**

His main gig at Dreamedia places him in the heart of the business of production, staging and events. Previous bands include Sex In The Desert and Push. Tristan has gigged for years around Darwin where he played guitar. Now on bass guitar, he has upped the ante in the band since 2019 and manages to keep both Scotty's on their toes.

### **Scott Morse**

Scott Morse has been the drummer for the Dirty Dan band, Stainless Steel and Ambush to name a few. His favourite band is Rush. Drumming since he was 10, he claims to be the best looking member of every band he has been in! He also owns Darwin's most expensive drum kit and plays it like he means it!
